

Healthier horses. Happy owners.

"I'm seeing marked improvement in his coat especially.

"Whereas a few weeks ago he had a greasy feel to his skin and hair, it's now softer and cleaner.

"He has more energy and while his feed hasn't changed the only thing that has is that he's now on Opti-Gut. He's got a bit more life and he's less lethargic."

Warnambool Equine

Owner/Manager

OPTI-GUT for Horses is a natural probiotic for optimum equine health.

Opti-Gut is one of a range of products based on powerful, biological stimuli that are effective, safe to use, and good for the environment.

Biolink 4 Plants is an Australian, family-owned business. Created by two farming families, we've had years of hands-on experience in farming and agriculture.

We're committed to helping Australian horse breeders and farmers to improve the health of their animals and develop more sustainable, profitable enterprises.

CONTAINS
ACTIVATED ZEOLITE

biolink4plants.com.au

Opti-Gut for Horses uses powerful, high-strength multi-strain microbials to assist in replenishing gut flora and improving nutrient absorption.

Our unique probiotic formula contains natural microbials, humic and fulvic acids, and activated zeolite.

- ✔ Combining these three main ingredients helps stabilise a horse's intestinal flora. This supports feed efficiency and may mean less feed is needed to maintain health and performance.
- ✔ Improved overall health often results in a healthier-looking coat.
- ✔ As nutrition absorption improves overall health, an animal's immunity tends to increase.
- ✔ Supports better performance when travelling and during times of high stress.

OPTI-GUT

FOR HORSES

- ✔ **Specifically formulated for horses**
- ✔ **Supports healthier digestion**
- ✔ **Promotes pH stability to help neutralise harmful free radicals**
- ✔ **Helps in feed utilisation of all types of diets**

Directions For Use

Add 40 - 65 grams to your horse's feed daily.

This supplement rate is based on a 550kg animal.

For foals, base daily supplement level at an appropriate rate per weight.

Ingredients

Microbes (Minimum 2 billion CFUs/gram of blend of *Bacillus subtilis*; *Enterococcus faecium*; *Lactobacillus plantarum*; *Lactobacillus casei*; *Pediococcus pentosaceus*; *Aspergillus oryzae*; *Aspergillus niger*; and *Saccharomyces cerevisiae*) plus humic fulvic, activated zeolite, and cereal byproduct. See website for duration of administration and safe handling guide.
