

**We're seeing real results.**

"We're third generation farmers and have tried many products that claim to be a benefit to cow health with no real response. We were keen to try Opti-Gut and within a month of using it we've noticed significant positive changes within our herd.

"From increased milk production, more contented cows and less health issues such as mastitis, we definitely recommend giving Opti-Gut a try!"

**De La Rue Farms**  
Irrewillipe, VIC

"Fantastic product. Works super well. Saw a difference in the amount of feed required very quickly.

"I'm feeding less with great results and the horses are looking fabulous."

**Lauren Harding**  
Polo Cross Horse Breeder, NSW

## **OPTI-GUT is a natural probiotic for optimum animal health.**

Opti-Gut is one of a range of products based on powerful, biological stimuli that are effective, safe to use, and good for the environment.

Biolink 4 Plants is an Australian, family-owned business. Created by two farming families, we've had years of hands-on experience in dairy farming and agriculture.

We're committed to helping Australian farmers to develop more sustainable, profitable enterprises.

# OPTI-GUT

NATURAL PROBIOTIC FOR  
OPTIMUM ANIMAL HEALTH

## Directions For Use

Add to animal feed daily in the following quantities (20g scoop included):

**Sheep & Pigs:** 5g

**Horses & Cattle:** 20 to 30g

**Aquaculture:** 20kg bag per megalitre

**Pets (eg Dogs, Cats) & Chooks:** 1 to 5g

## Active Ingredients

Microbes (Minimum 2 billion CFUs/gram) plus humic fulvic, activated zeolite, and cereal byproduct. See website for full list of microbes, duration of administration and safe handling guide. Store in a cool, dry place away from direct sunlight and humidity.

## Package Sizes

Available in 1.5kg, 4kg, 15kg (buckets) & 20kg (bag)

## Opti-Gut uses powerful, high-strength multi-strain microbials to replenish gut flora and improve nutrient absorption.

Opti-Gut is a natural daily probiotic supplement to support your animals' digestion and overall health.

- ✓ Our unique formula of natural microbials, humic and fulvic acids, and activated zeolite helps stabilise the animal's intestinal flora and improves feed efficiency.
- ✓ This product does not contain restricted animal material
- ✓ Optimises the pH in the animal's body to neutralise harmful free radicals.
- ✓ A versatile nutritional supplement in pellet form - suitable for horses, cows, sheep, goats, pigs, dogs, cats and fish.
